Our story

As often, it's a story of encounters.

- | The meeting between passionate and professional people,
- | The meeting between love for a unique product and know-how,
- | The meeting between land and sea.

To ultimately create a rare wine, an experience and a unique emotion.

Amphoris is the exclusive partner of Immersion Vins.

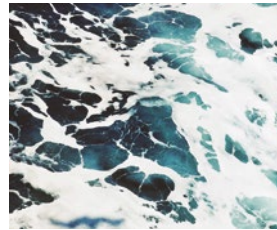

Our added value is:

- | Select winemakers looking for excellence in an oenological innovation research process.
- | Offer unique products and services around immersed wines, champagnes and spirits.

Immersion Vins is the global specialist of wines and spirits aged underwater.

We are the fruit of an exclusive association between professionals of underwater work and business professionals passionate about wine. We offer our services to immerse your wine, sparkling wine or spirit and make it a sublime and rare product.

Contact us to discover together how to develop new aromas for your wine and offer a unique and quality product to your customers.

1

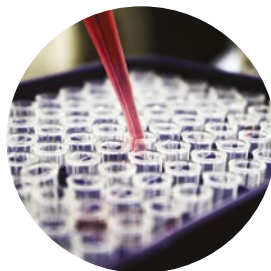

Immersion of wines and spirits

We offer you the possibility of aging your wines and spirits under optimal conditions that meet our selection criteria.

The submerged bottles will receive an immersion certificate.

2

Scientific tests

We offer a solution to have the impact of immersion on your products tested by independent laboratories chosen for their expertise.

3

Sale of wines and spirits on our website

When submerging your wines, champagnes and spirits with Immersion Vins you will be offered the opportunity, if you wish, to entrust to us some of your bottles, which we will market on our site and within our network.

4

Sale of special Immersion Vins boxes

Consisting of wines or exceptional alcohols meeting our qualitative requirements and having been immersed by us.

5

Wine Tasting

Opportunities to access exclusive invitation-only events to taste wines and spirits immersed by our customers.

6

Marketing

Professional photography or video services, aerial or underwater can be offered to our customers who wish to obtain graphic support for the promotion of their submerged wines.

A packaging service can also be set up for customers who request it.
